

## Bluewater Health

Location: Sarnia, ON

Client: Bluewater Health

Construction Manager: EllisDon

Architect: Farrow Partnership/Stantec Architecture

This project included 145,000 sq. ft. of renovated space to the main hospital and a 325,000 sq. ft. new addition. It includes sustainable features a green roof; a central atrium with glazing and shading devices to realize passive solar gains; a high R-value building envelope; coordinated modular wall and furniture systems; and the establishment of strategic corporate partnerships. The project was Ontario's first LEED certified acute care facility.
